What Would a Wise Man Do?

Live as though you will die tomorrow, and learn as though you will live forever. - Mahatma Gandhi

I am sure that you instantly recognized the wisdom in these words and you also acknowledge Mahatma Gandhi is a wise man. How though do you know this? Is it possible to recognize what we do not know? If I asked you to describe a munga muna would you be able to? Of course not, you have never experienced or heard of munga muna (I just made it up). You only recognize what is familiar to you. Does this indicate to the fact that you are wise? You must be or you would not be able to recognize the wisdom for what it is.

Action:-

Next time you have decisions just ask yourself: -

What would a wise man do?

The answer that comes to you will be your inner wisdom at work.
You have wisdom all you need to do is trust in it.
